FOR HUMANITY
FOR THE PLANET
FOR PEACE

World Beyond War aims to create awareness of popular support for ending war and to further develop that support. We work globally to advance the idea of not just preventing a particular war but abolishing the entire institution of war and militarism.

We strive to replace a culture of war with one of peace in which nonviolent means of conflict resolution replaces bloodshed and carnage.

War will not end on its own.

War is being confronted by popular resistance.

Join us in denouncing war as unacceptable.
