

The Time to End War Is Now!

US Militarism is a major cause of:

War, Terrorism, Death, Injury, and Trauma

Wide-spread Destruction, Inequality, and Poverty

Climate Change and Pollution

Homelessness and Refugees

Militarization of Police, Surveillance, and Erosion of Civil Liberties

Government Secrecy, Torture, Assassinations, and Lawlessness

"War teaches that violence is a solution to problems, thereby encouraging ever more violence."

—Bert Sacks
