

Canada's banks: investing in genocide

free Palestine  from the river to the sea  free Palestine

We don't want banks using *our money* to invest in genocide — do you?

Let's take our money elsewhere! Banks use our savings to invest in unethical businesses like weapons, oil, and mining. We're calling on Canadians to divest from the big banks and invest in alternatives.

Credit unions are a great option! You can access all your regular banking needs through them, but they're non-for-profit and make community-focused investments you have a say in. Learn more and find credit unions at <https://ccua.com/>

Nervous or Overwhelmed? We understand this is a big change. Removing a portion of your savings or increasingly moving money over time — *and telling them why!* — still makes a collective impact.
